CULTIVATING GROWTH - \$5,000

Cultivating Growth embodies the Chamber's enduring commitment to economic and community development. This initiative emphasizes collaboration and innovation to strengthen our regional economic ecosystem. Over the years, our strategies have evolved to meet the dynamic needs of our business community. Just as economic development looked different in 1914 than it does in 2024, it will continue to evolve through 2025 and beyond. *With the support of community leaders, the Chamber has identified three strategic priorities to guide our efforts from 2025 to 2030:*

Regionalism: Break down barriers to regional collaboration across Stark and adjacent counties by building stronger connections to other chambers, business associations, community organizations, and government entities.

Workforce Development: Help attract, retain, and develop the workforce our employers need by partnering with regional educational institutions, economic development organizations, government entities, and community groups to design and implement innovative programs and initiatives.

Economic Development: Facilitate direct economic development support to Chamber members, especially for businesses in the non-traded-goods sector, by connecting them to grants, incentives, financing, and other resources to fuel their growth.

Our five-year plan outlines a roadmap to drive success in these key areas. By diligently implementing these goals, we will deliver measurable progress year over year. As we transition into the next era of *Cultivating Growth*, we are committed to transparency and collaboration. By becoming a *Cultivating Growth* investor in 2025, you will have the opportunity to participate in quarterly investor calls. These exclusive sessions will offer insights into our progress, highlight quarterly accomplishments, and provide a forum for your questions and input. To show our gratitude, in 2025, your logo will be featured in marketing materials, announcements, events, and programs related to advancing regionalism, workforce development, and economic development. Your investment directly provides the resources we need to achieve our ambitious goals.

ADVOCACY IN ACTION SERIES

The Akron Canton Advocacy Alliance (ACAA)'s Advocacy in Action Series includes a host of opportunities to bring business leaders, elected officials, policy experts and other thought leaders together for discussions on policy issues and opportunities.

This series will provide members with unique access to policymakers and key decision makers and enable them to impact legislative activities that stand to impact the business community. Topics and event dates/times are based on legislative schedules and sessions as it develops throughout the year to ensure we are addressing the most timely and relevant issues and opportunities.

Over the last year since the ACAA's official formation, we have welcomed over 25 policymakers as part of this series, including U.S. Senator Sherrod Brown, U.S. Congresswoman Emilia Sykes, U.S. Congressman Michael Rulli, U.S. Congressman Max Miller, Lt. Governor Jon Husted, and well over a dozen state legislators and local government officials.

The **Policy Conference & Leadership Reception** provides an opportunity for elected officials, candidates, business executives, and community stakeholders to connect and network in an intimate setting. In addition to this, this event will feature a panel discussion with state legislators and other key government stakeholders on upcoming legislative activities and state budgets.

The **ACAA Day in Columbus** will feature a series of discussion with state legislators, Administration Officials, and other government stakeholders on the ongoing State Operating Budget process and other legislative activities that stand to impact the business community.
